Re.: Scholarship program at Avicenna International College (AIC) Academic Year 2016/2017

His Excellency,

It has been a tradition at AIC to announce scholarship opportunities for those talented internationals who have strong scientific background but due to financial or other reasons, their possibilities to enter international higher education are limited. I am pleased to cordially inform His Excellency that Avicenna International College will offer 5 full scholarships to the citizens of Your respected country with the following conditions:

1- Scholarship is available in the following programs:

- Medical Foundation Program
- English Language Program

2- The admitted students will enjoy 100% scholarship, which means they will not pay 5000 Euro tuition fee for the academic year of 2016-2017. Students should cover other charges including accommodation, food, books, visa fee, insurance, travelling costs, etc. These amounts must be covered by the applicants or their guardians. In special cases, based on merits, students can apply separately for financial support for these items too.

3- In order to apply for scholarship, applicants must present their final documents of secondary education, including final certificate and transcript (indicating marks in each subject) in English. Furthermore, the applicants must submit minimum one Letter of Recommendation issued by local educational officials or institutes. A recommendation letter from the local Ministry of Education or the Hungarian Embassy is strongly recommended.

4- Applications will be evaluated by the AIC management based on merits and educational results. The scholarship applications must be received latest by September 10, 2016. Evaluations are arranged in the order of arrivals. Applicants can contact Mrs. Tunde Klarik (Program Manager, klarik@avicenna.hu) for further information and application.

We are looking forward to welcoming students from Your respected country under present scholarship.

Faithfully yours,

Dr. Shahrokh Mirza Hosseini
President
Member of the European Academy of Sciences and Arts
