Representative of the ministry of higher education and scientific research (MOHESR) in Romania

### Ref: The *Study in Iraq* Program

The Ministry of Higher Education and Scientific Research of the Republic of Iraq / Directorate of Missions and Cultural Relations is honored to announce the launch of the *Study in Iraq* program starting from March 15, 2023. This program is addressed to students, Arab or international, who wish to benefit from scholarships in order to receive graduate and postgraduate degrees (Bachelor's degrees, advanced graduate studies, Master's, Doctorate) in all specializations, thus pursuing their studies at 48 accredited Iraqi universities, state or private institutions. For this purpose, 5784 scholarships are available.

We would like to mention that these scholarships provide benefits such as exempting students from paying tuition fees and accommodation costs. In addition to that, some of these universities also have places available for those who wish to study on their own expense, within the limit of 1053 places.

To our brothers and friends, Arabs or of other nationalities, who wish to study in Iraqi universities or research centers, we provide the link below to find out how they can apply directly for enrollment or to obtain additional details about the conditions of implementation, the regulations of the program or the specializations available within it.
