

SKKU is one of Korea's most prestigious institutions, with a rich history spanning over 620 years. In partnership with the SAMSUNG Group, SKKU continues to pursue innovation and global engagement.

As part of our efforts to foster a more diverse international student community, we would like to invite your esteemed mission to nominate outstanding students for a **special SKKU scholarship, beginning with the Spring 2026 intake.**

Each embassy or consulate may nominate up to **two exceptional candidates for undergraduate or graduate study in any academic field.** Nominees should be accompanied by an official letter of recommendation issued by your mission when submitting the application documents. If a nominated student is admitted to SKKU, they will be awarded a **50% tuition scholarship** for the full duration of their degree program.

We believe this scholarship program can serve as a bridge between our university and your country, and we sincerely hope it will contribute to the advancement of international academic exchange and cooperation.

Should you have any questions regarding the nomination process or scholarship details, please do not hesitate to contact our Office of International Student Services at suying@skku.edu
